

## I. Epidemiological profile

Population (UN Population Division)	2012	%
High transmission (>1 case per 1000 population)	20 800 000	100
Low transmission (0-1 cases per 1000 population)	0	0
Malaria-free (0 cases)	0	0
Total	20 800 000	

Parasites and vectors	
Major plasmodium species:	<i>P. falciparum</i> (100%), <i>P. vivax</i> (0%)
Major anopheles species:	<i>An. gambiae</i> , <i>funestus</i> , <i>nili</i>
Programme phase: Control	

## II. Intervention policies and strategies

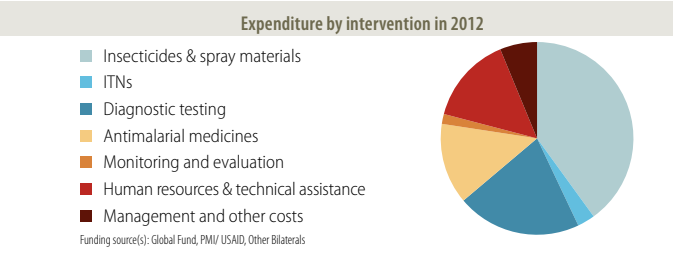

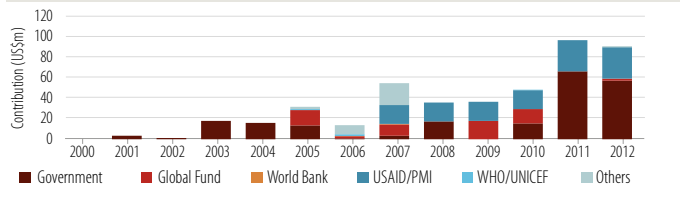

Intervention	Policies/strategies	Yes/No	Year adopted
<b>ITN</b>	ITNs/LLINs distributed free of charge	Yes	2001
	ITNs/LLINs distributed to all age groups	No	-
<b>IRS</b>	IRS is recommended	Yes	2010
	DDT is used for IRS	No	-
<b>Larval control</b>	Use of larval control	Yes	-
<b>IPT</b>	IPT used to prevent malaria during pregnancy	Yes	2010
<b>Diagnosis</b>	Patients of all ages should receive diagnostic test	Yes	2010
	Malaria diagnosis is free of charge in the public sector	Yes	2014
<b>Treatment</b>	ACT is free for all ages in public sector	Yes	2006
	Artemisinin-based monotherapies withdrawn	Yes	2005
	Single dose of primaquine (0.25 mg base/kg) is used as gametocidal medicine for <i>P. falciparum</i>	-	-
	Primaquine is used for radical treatment of <i>P. vivax</i>	Yes	-
	G6PD test is a requirement before treatment with primaquine	Yes	-
	Directly observed treatment with primaquine is undertaken	No	-
System for monitoring of adverse reaction to antimalarials exists	Yes	-	

Intervention	Policies/strategies	Yes/No	Year adopted
<b>Surveillance</b>	ACD for case investigation (reactive)	-	-
	ACD at community level of febrile cases (pro-active)	Yes	-
	Mass screening is undertaken	Yes	-
	Uncomplicated <i>P. falciparum</i> cases routinely admitted	No	-
	Uncomplicated <i>P. vivax</i> cases routinely admitted	No	-

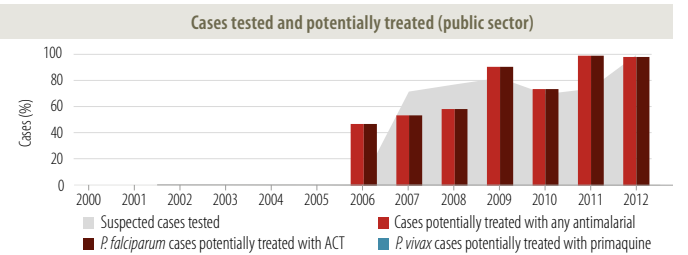

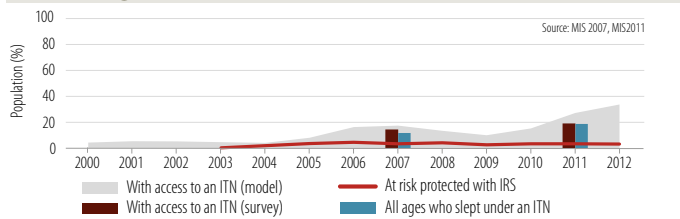

Antimalarial treatment policy	Medicine	Year adopted
First-line treatment of unconfirmed malaria	-	2006
First-line treatment of <i>P. falciparum</i>	-	2006
For treatment failure of <i>P. falciparum</i>	-	2006
Treatment of severe malaria	QN	2006
Treatment of <i>P. vivax</i>	-	-
Dosage of primaquine for radical treatment of <i>P. vivax</i>	-	-
Type of RDT used	-	-

Therapeutic efficacy tests (clinical and parasitological failure, %)							
Medicine	Year	Min	Median	Max	Follow-up	No. of studies	Species

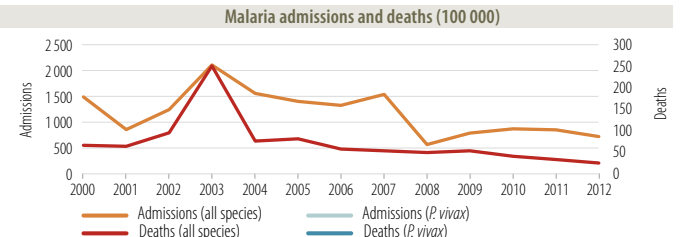

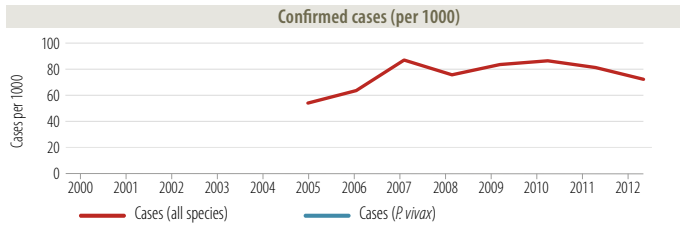

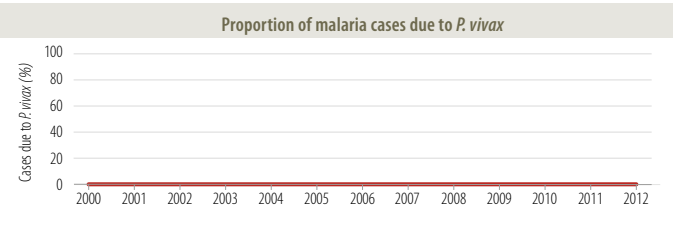

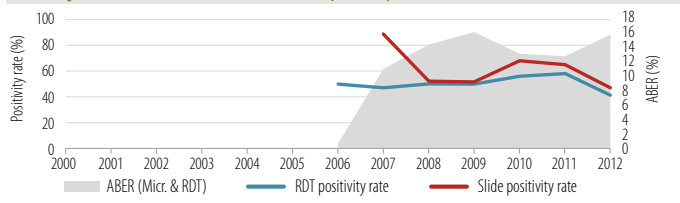

## III. Financing

## IV. Coverage

## V. Impact

**Impact:** Insufficiently consistent data to assess trends
